

Dear Bhavya Tiwari,

We are pleased to offer you an internship with AarkaX for the position of AI Engineer Intern. This letter confirms the key terms of your internship and outlines the responsibilities, learning expectations, and acceptance process for the engagement.

AI ENGINEER INTERN

InternName	Bhavya Tiwari
Position	AI Engineer Intern
Organization	Aarkax Private Limited
Department	Engineering and Artificial Intelligence
Start Date	1 July 2026
End Date	30 September 2026
Work Mode	Remote

1. Role and Responsibilities

During the internship, you will work on supervised learning assignments and product-focused AI tasks. Your responsibilities may include:

- Supporting AI application development, model evaluation, prompt design, and workflow automation.
- Assisting with data preparation, testing, documentation, and research for AI-enabled product features.
- Learning and following engineering practices for version control, code quality, privacy, and information security.
- Participating in check-ins with your mentor and sharing progress, blockers, and learning outcomes.

2. Confidentiality and Company Information

During your internship, you may access internal information, project material, source code, product ideas, documents, customer or business information, and other confidential material. You must keep this information strictly confidential and use it only for authorized internship work.

3. Completion and Certificate

Subject to successful completion of the internship and return of any company material or access, AarkaX may issue an internship completion certificate for the period from 1 July 2026 to 30 September 2026.

We look forward to welcoming you to AarkaX and supporting your learning journey as an AI Engineer Intern.

From AarkaX
